SUMMARY

UX designer with 2+ years of experience across UX/UI design and web design. Specializing in developing designs that fulfill user needs and meet stakeholder requirements and deadlines. Met OKRs to design and finalize MVPs for hand off to ensure company was on track to meet quarter goals. Consistently learning and integrating new tools and strategies to elevate UX research and design processes and outcomes.

EXPERIENCE

UX/UI Designer — PhitNest

August 2023 — present

Collaborate with design, developer, and executive teams to design and ideate primary iOS app features in Figma and meet project OKRs. Highlights include:

- Collaborated with design lead in brainstorming and designing wireframes in Figma for newsfeed feature as part of a three week sprint. Developed iterations and refined designs based on feedback from project stakeholders.
- Led handoff process of newsfeed MVP along with detailed design document to development team.
- Took on independent project to design invite system feature in Figma under guidance of the PO. Designed mockups and developed iterations based on feedback from design team and project stakeholders.
- Active collaboration with development team to perform app testing to identify bugs and ensure in-app features align with design specifications by creating GitHub tickets.
- Constant communication and coordination with all company teams to strategize design decisions and secure alignment in mission and project goals.
